FARMERS' BULLETINS

Nos. 1151-1175

WITH CONTENTS AND INDEX

PREPARED UNDER THE SUPERVISION OF

JOHN L. COBBS, JR.

CHIEF, DIVISION OF PUBLICATIONS.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1921.

USDA
LIB

168343

CONTENTS.

FARMERS' BULLETIN No. 1151.—ALSIKE CLOVER. Page.

Utility of alsike clover 3
History of alsike clover 3
Botanical characters of the plant 4
Climatic adaptation and distribution 5
Soil and moisture requirements 5
Seed, seeding, and companion crops 6
Inoculation 8
Uses 9
Second crop of alsike clover 21
Alsike clover as a volunteer crop 21
Diseases and insect enemies 22
Some harmful effects of alsike clover 23
Seed production 23

FARMERS' BULLETIN No. 1152.—SUGAR-BEET SEED GROWING IN THE ROCKY MOUNTAIN STATES.

Growing sugar-beet seed an established industry 3
Size of roots for seed 3
Time to sow seed for stecklings 4
Spacing for stecklings 5
Preparation for sowing steckling seed 5
Care of steckling crops 6
Time to harvest stecklings 7
Preparations for harvesting stecklings 7
Siloing stecklings 9
Transplanting stecklings 12
Cultivating seed crops 15
Harvesting seed crops 18
Thrashing seed crops 19
Cleaning seed crops 20

FARMERS' BULLETIN No. 1153.—COWPEAS: UTILIZATION.

The principal uses of the cowpea 3
Cowpeas for seed 3
Time of harvesting 4
Methods of harvesting 5
Methods of thrashing 7
Storage of seeds 8
Proportion of seed to hulls 9
Feeding value of cowpeas 10
Cowpeas for human food 10
Yields of seed 11
Cowpea straw 11
Cowpeas for hay 12
Time and method of cutting 12
Curing cowpea hay 13
Feeding value of the hay 15
Yields of cowpea hay 17
Cowpeas for pasture 17
Cowpeas for ensilage 19
Cowpeas for soiling 20
Cowpeas for soil improvement 20

FARMERS' BULLETIN NO. 1154.—THE ASPEN BORER AND HOW TO CONTROL IT. Page.
Trees attacked by the aspen borer ... 3
Character and extent of injuries ... 4
Distribution ... 7
Seasonal history and habits ... 7
Description ... 8
Natural enemies ... 8
Associated insects and disease ... 9
Condition of trees attacked ... 10
Situation and conditions favorable for attack ... 11
Control measures ... 11

FARMERS' BULLETIN NO. 1155.—DISEASES OF SHEEP.
Infectious diseases ... 3
General diseases ... 18
Diseases of the head and air passages ... 21
Diseases of the digestive system ... 26
Diseases of the nervous system ... 30
Diseases of the urinary system ... 31
Diseases of the reproductive system ... 32
Diseases of the skin ... 36

FARMERS' BULLETIN NO. 1156.—ANGOUMOIS GRAIN MOTH.
Establishment and spread in America ... 3
Description ... 4
Injury ... 5
Time required for development ... 6
All cereal grains affected ... 7
Losses ... 8
Maturing grain and stored grain subject to attack ... 9
Infestation of corn ... 11
Field infestation of wheat ... 13
Early field infestations and delayed harvesting increase opportunity for damage ... 14
Prompt thrashing means saving ... 15
Take advantage of the insect's weakness ... 15
Delayed thrashing ruins many crops ... 16
Remedial measures ... 16
Parasites ... 19
Community effort in insect sanitation ... 20

FARMERS' BULLETIN NO. 1157.—WATERPROOFING AND MILDEWPROOFING COTTON DUCK.
Use of cotton duck ... 3
Classes of cotton duck ... 3
Selection of cotton duck for farm use ... 5
Care of cotton duck ... 7
Waterproofing and mildewproofing cotton duck ... 9

FARMERS' BULLETIN NO. 1158.—GROWING AND UTILIZING SORGHUMS FOR FORAGE.
Importance of the sorghum crop ... 3
Areas suited to sorghum production ... 3
Relation of sorghum to climate ... 4
Value of sorghum under droughty conditions ... 4
Soil relations ... 5
Classification of sorghum varieties ... 6
Sorghum varieties recommended for different areas ... 8
Date and method of seeding sorghums ... 10
Rate of seeding sorghums ... 13
Cultivation of sorghums ... 16
The time to harvest sorghums ... 16
Methods of harvesting the sorghums for fodder, silage, and hay ... 17
The production and value of good sorghum seed ... 18
The value of sorghum-legume mixtures ... 20
The utilization of forage sorghums ... 20
Prussic-acid poisoning ... 27
Diseases of sorghums ... 28
Insect enemies ... 30

Page.		Page.
	FARMERS' BULLETIN No. 1159.—FERMENTED PICKLES.	
3	Introduction	3
4	Cultivation of the cucumber	4
7	Keeping cucumbers	5
7	Fermentation of cucumbers	5
8	Equipment and supplies for brining and pickling	6
8	Salt pickles	9
9	Processing and sorting salt pickles	10
10	Sour pickles	11
11	Sweet pickles	11
11	Mixed pickles	12
	Dill pickles	13
	Sauerkraut	15
3	Fermentation and salting as a means of preserving vegetables	16
18	Causes of failure and how to avoid them	17
21	Coloring and hardening agents	19
26	Miscellaneous information	20
30	Bibliography	23
31		
32	FARMERS' BULLETIN No. 1160.—DISEASES OF APPLES IN STORAGE.	
36	Principles governing disease control	3
	Scab	3
	Blotch	4
3	Fruit-spot	5
4	Jonathan spot	6
5	Bitter-pit	7
6	Drought-spot	8
7	Stigmonose	9
8	Water-core	10
9	Bitter-rot	10
11	Northwestern anthracnose	12
13	Black-rot	13
	Alternaria rot	14
14	Blue mold	15
15	Pink-rot	16
15	Spongy dry-rot	17
16	Brown-rot	17
16	Gray mold	18
19	Internal breakdown	18
20	Frost injury	19
	Soft-scald	20
	Scald	21
3	The storage life of apples	23
3	FARMERS' BULLETIN No. 1161.—DODDER.	
5	The noxious character of dodder	3
7	Common names of dodder	3
9	Description of dodder	4
	Species of dodder and plants which they attack	5
	Life history of a single dodder plant	7
	How dodder is introduced on the farm	10
3	How to prevent the introduction of dodder on the farm	11
3	Suggestions for providing clean seed	12
4	Methods of control and eradication	13
4	Eradication in small areas	13
5	Eradication in large areas	15
6	Chemical means of eradication	19
8	Dodder on hosts other than clover and alfalfa	19
10	Infestation of cultivated plants	19
13	Dodder on wild plants	20
16	Danger to cultivated plants from wild-plant hosts	20
16		
17	FARMERS' BULLETIN No. 1162.—PROSO, OR HOG MILLET.	
18	Description	3
20	The place of proso in our agriculture	4
20	Climatic requirements	6
27	Soils adapted to proso	8
28	Varieties	8
30		

FARMERS' BULLETIN NO. 1162.—PROSO, OR HOG MILLET—Continued. Page.
Preparation of the soil 11
Method of sowing 12
Rate of sowing 12
Date of sowing 12
Harvesting 13
Thrashing 13
Uses of proso 13
Human food 13
Feed for live stock 14
Diseases and pests of proso 15
Weight of proso per bushel 15

FARMERS' BULLETIN NO. 1163.—DRY FARMING IN WESTERN SOUTH DAKOTA.
Agricultural conditions 3
Topography of the country 4
Soils 4
Climate 4
Crop production 5
Adapted crops 6
Small grains 6
Cultivated crops 8
Pasture and hay crops 9
Cultural methods 11
The best system of farming 14

FARMERS' BULLETIN NO. 1164.—THE FARM LEASE CONTRACT.
Importance of contract 3
The principal kinds of lease contracts 4
Points to be considered in the farm lease 6
Discussion of problems common to all kinds of farm leases 11
Some special problems of share leases 24
Fundamental principles underlying all lease contracts 28
Principles underlying share contracts 30
The personal relationship 34

FARMERS' BULLETIN NO. 1165.—LAWS RELATING TO FUR-BEARING ANIMALS, 1920: A SUMMARY OF LAWS IN THE UNITED STATES, CANADA, AND NEWFOUNDLAND, RELATING TO TRAPPING, OPEN SEASONS, PROPAGATION, AND BOUNTIES.
Legislature of 1920 3
Summary of laws 5
Federal laws 6
Laws of States 6
Laws of Canada 25
Laws of Newfoundland 30
Officials from whom copies of laws may be obtained 31
Publications relating to fur-bearing animals 32

FARMERS' BULLETIN NO. 1166.—POISON IVY AND POISON SUMAC AND THEIR ERADICATION.
Ivy and sumac poisoning largely preventable 3
The poison-ivy plant 3
How to detect poison ivy 4
Description of the plants of poison ivy 5
Local forms of the plants of poison ivy 6
Confusion of poison ivy with the Virginia creeper 7
The poison-sumac plant 8
How to detect poison sumac 9
Description of poison sumac 9
Confusion of poison sumac with harmless sumac and other plants 10
Poisonous action of poison ivy and poison sumac 11
Prevention of ivy poisoning 12
Remedies for ivy poisoning 12
Eradication of poison ivy and poison sumac 13
Destruction of poison ivy 14
Destruction of poison sumac 15

11	FARMERS' BULLETIN No. 1167.—ESSENTIALS OF ANIMAL BREEDING.	
12	Basic facts about heredity	3
12	The science of breeding	4
12	The art of breeding	17
13	Live-stock improvement	31
13	Some incorrect ideas of heredity	33
13	Conclusions	36
13		
14	FARMERS' BULLETIN No. 1168.—VARIETIES OF WINTER WHEAT ADAPTED TO THE EASTERN UNITED STATES.	
15	The geographic region covered	3
15	Testing varieties of wheat	4
	Hard red winter wheat	6
3	Soft red winter wheat	6
4	Soft white winter wheat	14
4	The improvement of varieties	16
4	The grouping of adapted varieties of wheat	17
5		
6	FARMERS' BULLETIN No. 1169.—INSECTS INJURIOUS TO DECIDUOUS SHADE TREES AND THEIR CONTROL.	
6	Introductory	3
8	The principles of shade-tree insect control	10
9	The stomach-poison sprays	11
11	The contact sprays	11
14	Treatment of tree wounds	14
	Filling tree cavities	15
3	Pruning as related to insect injury	15
4	Stimulation of growth by fertilization, etc	16
6	Miscellaneous insect-killing implements	16
11	Tree banding	17
24	Spraying outfits for small operations	20
28	Spraying outfits for large operations	22
30	Spraying accessories	23
34	Spray-dilution table for ready reference	29
	Leaf-chewing insects	31
	Bark, wood, and twig boring insects	52
	Sap-sucking insects	74
	Gall-making insects and mites	88
3	Deciduous shade-tree insects, lists arranged according to the manner of attack and kind and part of tree subject to it	95
5		
6	FARMERS' BULLETIN No. 1170.—MEADOWS FOR THE NORTHERN STATES.	
6	Permanent, rotation, and temporary meadows	4
25	Plant mixtures for meadows on fertile well-drained soils	4
30	Mixtures for poorly-drained fertile lands	5
31	Mixture for the southern border of the timothy belt	6
32	Poor-land hay plants	6
	Temporary hay plants	7
	Time and method of seeding	8
	Seeding without a grain crop	9
3	Preparation of the seed bed	9
3	Rate of seeding	10
4	Fertilizers	10
5	Fertilizers recommended	10
6	Use of lime	11
7	Common hay plants	12
8		
9	FARMERS' BULLETIN No. 1171.—GROWING ANNUAL FLOWERING PLANTS.	
9	Use of flowering plants	3
10	The cultivation and uses of annual flowering plants	19
11	Plants for special soils or conditions	76
12	The principal characteristics of some annual flowering plants	79
12		
13

FARMERS' BULLETIN NO. 1172.—FARM SLAUGHTERING AND USE OF LAMB AND MUTTON.

	Page.
Use of mutton in the diet	3
Reasons for limited use	4
The flavor of mutton	4
Why more mutton and lamb should be used	5
Slaughtering and dressing sheep	6
Care of the carcass	12
Cutting up the carcass	13
Cutting up a lamb carcass	15
Home curing of mutton	16
Brine-cured meat	17
Dry-cured meat	19
Recipes for cooking mutton and lamb	20

FARMERS' BULLETIN NO. 1173.—PLANS OF RURAL COMMUNITY BUILDINGS.

Type of building	4
Architecture	5
The site	6
Construction	6
Building costs	6
Types of buildings for which plans are presented	7
Farming community	8
Farming and village community	13
Library and auditorium features	19
Farming and town community	23
Farming and small city	36

FARMERS' BULLETIN NO. 1174.—ONE-REGISTER FURNACES (PIPELESS FURNACES).

Principle of the system	3
Construction of the furnace	3
Circulation of air	4
Factors affecting its suitability	7
Limitations of the one-register furnace	9
Means of heating a detached room	10
Advantages of the one-register furnace	11

FARMERS' BULLETIN NO. 1175.—BETTER SEED CORN.

Low yields due to poor seed can be prevented	3
The very best seed is available at ripening time	3
Where to obtain the best possible seed corn	5
Corn breeding is a special line of work	5
What constitutes good seed corn	5
How to gather seed corn	7
Treatment of seed immediately after gathering	9
Winter storage of seed corn	11
Preventing injury by weevils or grain moths	11
Testing the germination of seed corn	11
Grading seed corn	13
Methods of shelling	13
